Whether you are a recently certified Practitioner or an advanced long term 'user', you'll be excited and challenged by the amazing range and variety in this highly respected and renowned 'connoisseurs' Master Practitioner Programme.

There are multiple benefits of learning NLP at these advanced levels. Of course you will become more flexible, solve problems more easily and systemically and generally be more effective in many contexts of your life. There are also lots of opportunities for you to find out more about yourself and transform more of your own potential into action, living your life with enhanced wisdom and joy.

We believe this training is at the pioneering edge of human learning.

- Achieve real 'Mastery' in NLP. Use the tools and skills with elegance and congruence
- Further develop your coaching and interpersonal skills to powerful new levels
- Create solutions in many situations by using an advanced, sophisticated NLP toolbox
- Learn Modelling, the 'heart' of NLP — and produce your own contribution to the field

## The Training Team

We offer you an astonishing world-class line up of trainers — from all the major 'schools' in NLP. You'll benefit from their many years of profound knowledge, enjoy their differing maps and perspectives and get to experience a rich variety of approaches to learning. These inspirational and accomplished teachers will share with you their latest research and models of excellence and together create an integrated seven-month journey of discovery and change.

## The Modelling Project

You choose for your project a skill that would make a real difference in your life. You'll join a small friendly study group with a personal coach/assistant which will meet up at least once per module to offer you support, encouragement and advice. The Masters training will, among other achievements, offer you the skills and structures to produce an original piece of modelling. Some previous participants have had even their work published. It's a fascinating way of really bringing your NLP to life!

## The Coaching

Our international trainers consider the personal coaching and support provided by our Course Director and the Assistant team to be among the highest quality in the world.

## PPD Learning

# What people are saying

*The PPD Learning Masters course has provided me with a rich and challenging learning experience. A fruitful combination of Judith's solid leadership, inspiration from today's leaders in the field and support from the numerous capable assistants gave me the breadth and depth of change that I looked to achieve. I feel confident now that I can competently use NLP and have the awareness to use it usefully.*

Christopher Howells, Project Management Consultant

*The Master Practitioner course I have enjoyed with PPD has been remarkable. Whilst the brochure tells you who the speakers are, each glorious weekend was an absolutely delicious feast of learning and sharing.*

*The speakers are all from the roots of NLP's creation and are passionate and informative throughout. My overriding delight was in these acknowledged world experts' genuine humility in expressing their contributions and encouraging us to contribute to the further development of NLP. Each speaker has a unique range of presentation styles, perspectives and experiences; all of them share their passion in an inclusive, warm and inviting manner. Each weekend allowed me to understand, develop and grow as an individual and within our modelling teams.*

*Thank you so much!*

*Sheilina Somani, Positively Project Management*
